CONFIDENCE

Back in 1879 we started to build our business in Cleveland, located in a small shop on West Ninth Street. We determined to build on a solid foundation of integrity and confidence, with the thought, almost a dream, of developing into a large One Price Direct From Our Factory to You Clothing Business. Each year forging ahead, breaking the previous year's selling record. Since the first suit, a policy of constant improvement has always been followed, never satisfied, always trying to make good clothes better.

Building better clothes all the time, we have also been building our organization until today with more that one thousand people employed in our Cleveland factory alone (most of whem are stockholders and share in the profits), the officers, the woolen buyers, the designers, giving their efforts to the selectang of a wonderful collection of styles, the foremen, the foreladies and hundreds of operators all work with one thought of building into Richman's Ciothes the best possible quality of workmanship.

All the organization from the officers down are working with the thought of making clothes economically, so they can be sold at the low price of \$22.50.

The style, quality and price all have their value in the building of this business, but what is more important of all i. that indescribable, intangible something developed and deserved from all the years of faithful service-confidence and

Now thousands of men and young men each year choose Richman Clothes, not only because they are buying a suit or overcost for the low price of \$22.50, but because they know they will find value, style, workmanship, and most important, the experience of years in clothes making, in this institution of established importance and integrity.

OPEN LETTERS

To the Board of Education

Gentlement I hear complaints from my citizens already concerning your regular salarled school doctor. Some say he is overruling the orders of their tamily physicians and ordering things that other docters have passed on in the interest of clab-

I don't like to see may dissension along this line and I realize that there is always a chance for argument among medical men, but I do think that the judgment of regular family physicians should be taken into consideration and heeded.

Most parents would rather have their own physicians took after their children than someone hired by the month by the board who, at the best, could give them only a very hurried examination.

We may need a regular school doctor at the rate of \$1,200 a year and a wagon may need five wheels. We are paying a city health commissioner a real salary for looking after the general welfare of our city and so far as I know, his ability to do this hasn't been questioned.

Boys: I am glad to see that you are giving the old courthouse clock a new coat of paint. It certainly needed it and we shall look upon it in the future with more pride. It is a faithful servant and deserves the attention you are giving it.

While you are at it, why not work out a plan for beautifying the grounds about the courthouse? Something might be done at Memorial hall also. The people would appreciate anything along that line.

LIMA BEANE

To the City Street Department

Gentlemen: I notice that you have patched the joints of pavement at various places where one kind joins another and where ruts have developed. There are still many other places that need attention before winter sets in. Will you please attend

My Friends: Changes in stop signs are still being made. I note that they are being taken off Woodlawn av and placed on the right of way streets east and west where they intersect this thorofare. While you are changing them, it might be well to check up and determine whether or not we have too many in the outlying districts.

DIMA BEAND

Rev. A. D. Welty

Dear Sir: May I not compliment you upon your record of a quarter of a century spent in the interest of needy persons in my city? You will celebrate the 25th anniversary of your service here soon and I know I am expressing the sentiment of every one of my citizens when I say that we are as proud of your record as you should be. KNIFE IN CHEST

Toledo Man Suffered Agony

With His Stomach for 10

Long Years

declared Mr. A. J. Andrews,

well known citizen of Toledo, Ohio, living at 2324 Broadway. that city, while talking recently with The Plant Juice Man.
"My stomach got so bad that everything I ate formed gas which would collect in my chast and

would collect in my chest and when I took a breath it would seem like a sharp knife was going through my chest. At times it felt like there was a hard rock in my stomach and I would have to sit down to ease the pain. My kid-neys were badly disordered and caused me a great deal of suffering. And I could not sleep right Every night I would wake washout midnight and would lie awake, unable to sleep because of he pain in my stomach and bar My limbs got sore and stiff and I could hardly get up when I was down. I was told that only on operation would help me and it is the truth that medicines did not seem to have any effect upon my condition at all. "Then finally I found Plant

Juice. And as I said before, Plant Juice has given me relief from my suffering so that I now feel line. The best evidence of the way I have improved on Plant Juice is that I have gained from 155 to 195 pounds. My stomach is so much better that I can eat anything I want and do not have the awful pains or any distress from my stomach. My kidneys are im-proved and I am able to sleep fine and have been refieved of the aches and pains and soreness in my head, chest, back and limbs In short, your Plant Juice simply did me a world of good."

Plant Juice is sold in Linus by the Hunter drug stores, 49 Public Square and Main and Waynests; also at the Argonne drug store opposite Post Office.
